OVERVIEW

The horn speaker is made of weather proof aluminium offers excellent sound characteristics. The speaker is perfectly manufactured for professional outdoor applications and will be delivered with a mounting bracket and rust-proof screws. With only 1,7kg weight the 20inch horn is the right choice also for challenging mounting requirements. The 35mm standard thread (1 3/8") is compatible with the driver.

The phenomenal sound results from the combination of the horn driver with 50W power. A plastic housing with components of die-cast aluminium ensure the high quality level of the horn driver.
